

STUDENTEFOIRE

Foire de l'Étudiant ♦ Student Fair ♦ Studierendmesse

INVITATION

The Ministry of Higher Education and Research is pleased to invite you to this year's

Student Fair

Fair days : 27th & 28th October 2022

Digital platform accessible from 24th October – 28th December 2022

This year's Student Fair will take on a *hybrid format*, with two days of on-site interaction, combined with a digital platform. However, the number of exhibition stands at the university campus of Belval, where the fair takes place, is limited. This is why **we invite you to join us for the online part of our fair on our digital platform.**

On your virtual stand, from 24th October until 28th December, you will have the opportunity of presenting your institution in a concise, intuitive and complete manner, e.g. via **pre-recorded videos and downloadable documentation**. You will also indicate a contact address (as well as any other link of your choice to web pages, interactive pages if you so wish, that are connected to your institution), which will allow for an **asynchronous communication** with interested visitors. Further videos (complementing those at your virtual booth) may be uploaded for consultation by visitors in a *video library*.

During the two days of the fair as such (27th and 28th October 2022), you will also have the possibility of presenting a 30-minute live webinar, which can be watched online but also on-site, in a dedicated auditorium, interaction between presenter and audience being possible via chat. After the fair, all the webinars will remain accessible in replay mode on the digital platform. The final selection of webinars will be made by the organiser.

As **the platform remains the same as in 2021** (but without direct interaction, except for the webinars), last year's exhibitors will be able to have their booth **reactivated** (and update it, of course). You will receive a detailed **guide** of the digital platform in September.

As was the case in 2021 as well, the online platform will be open for three days (24th-26th October) before the on-site part of the fair, in order for visitors to be able to sign up and discover the online offer in advance. The platform will remain accessible in consultation mode until 28th December 2022.

Your participation on the digital platform of the Student Fair is free of charge.

Thank you for registering for the online part of the
Student Fair 2022

until 15th September at the latest

by clicking [here](#).

We are looking forward to welcoming you on our digital platform!

General conditions of participation:

- Indication, mandatory, of at least one contact address on the virtual booth.
- Admissible higher education institutions: institutions offering at least one degree accredited by the competent authorities of the State of the location where the course is organised and where the degree is awarded.
- Other exhibitors: admission will be based on the field of activity of the applicant and the link with the target audience of the fair.

The selection of exhibitors and webinars, as well as the attribution of an online category to participants, will be made by the organiser.
